

CHORDS PART 2

In this Track Project, we will be learning the minor chords for the key of C. The first inversions we will be learning are the root position of the minor chords. These chords are Dm, Em & Am. The numbers for these chords are 2, 3 & 6. Just a reminder that in every key, the numbers for the minor chords in the key you are in will ALWAYS be the 2, 3 & 6.

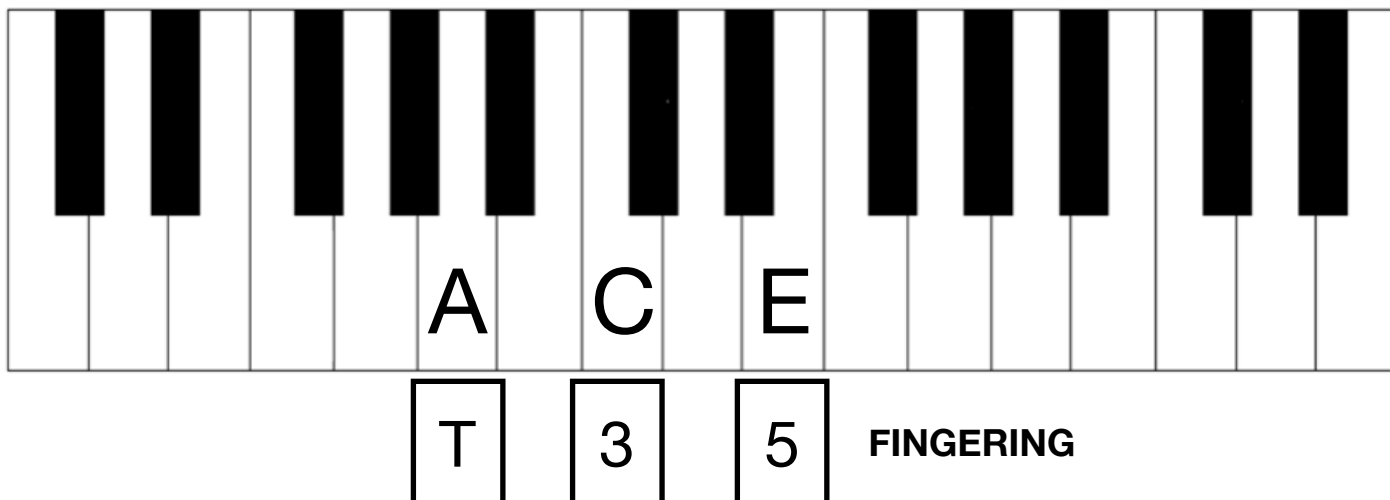

Now, let's look at the "2" or the Dm chord in the root position in the key of C.

Now, let's look at the "3" or the Em chord in the root position in the key of C.

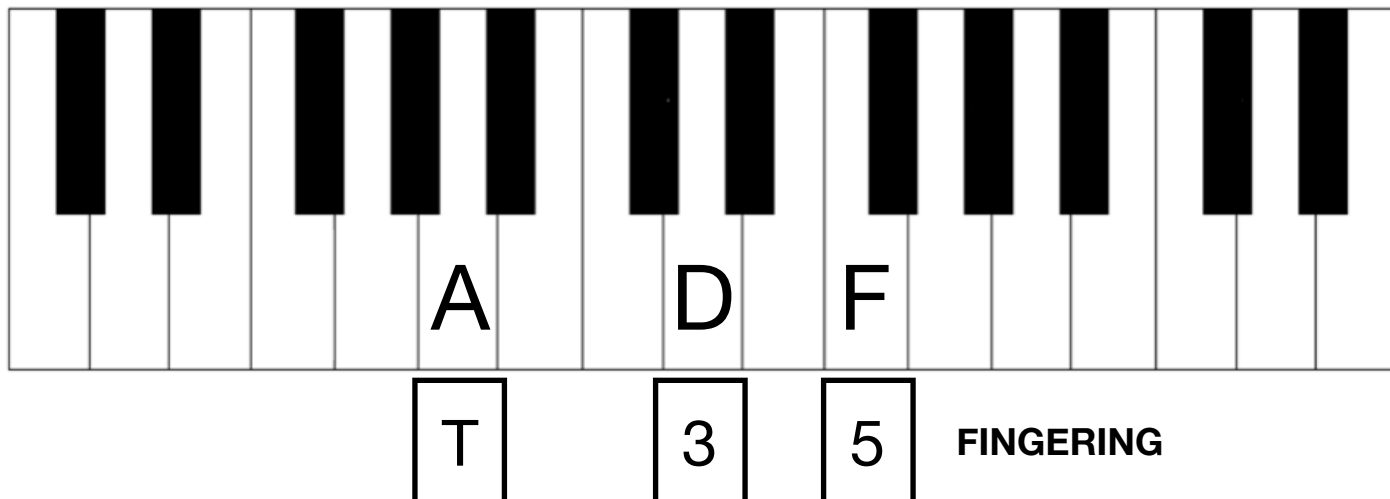

Now, let's look at the "6" or the Am chord in the root position in the key of C.

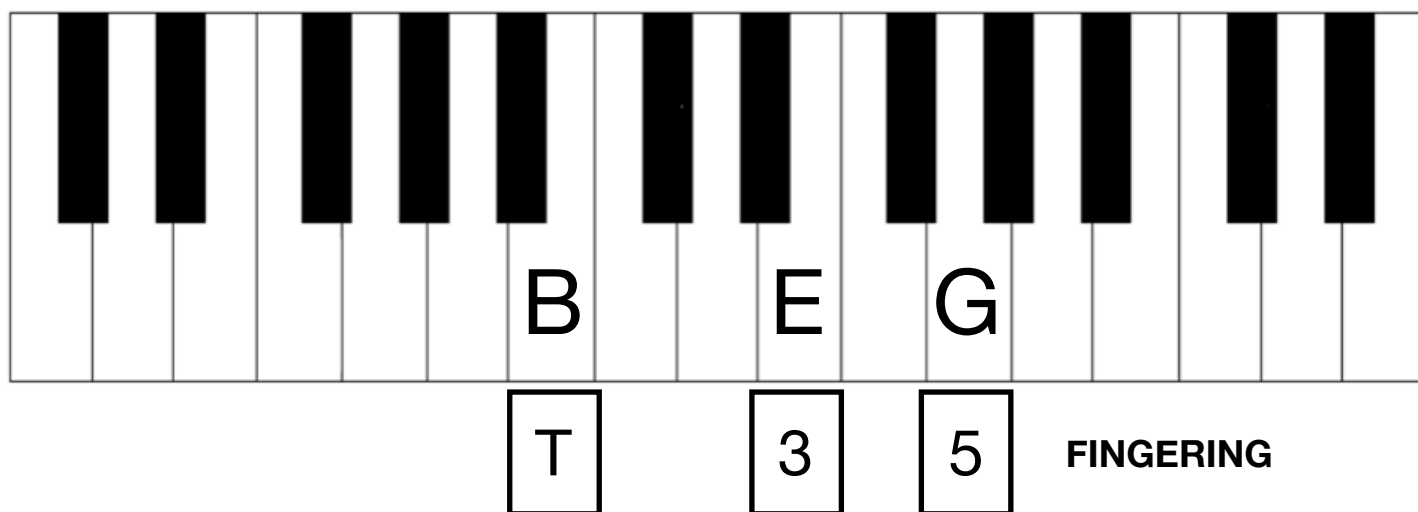

Just as the Major chord inversions, we will also do the same thing with these 3 minor chords.

Let's look at the "2" or the Dm chord in the 2nd inversion in the key of C.

Now, let's look at the "3" or the Em chord in the 2nd inversion position in the key of C.

Now, let's look at the "6" or the Am chord in the 2nd inversion position in the key of C.
